Re: Update on Faulkner County Animal Welfare Disaster Plan

Dear Mr. Higgins,

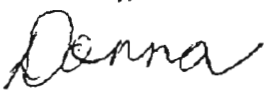

I have had two meetings with the Core Team and have several items being researched. There is a lot of information that has to be obtained between now and August. We are looking into other states' plans, contacting Dr. Badley, setting up a responsibility tier, gathering input from rescue groups and other groups necessary for a working disaster plan. We are also looking at storage facilities to house food, crates and other necessary items during a disaster. The entire Core Team time and my time is being donated. However, we do have some needs listed below.

What we need immediately:

1. P.O. Box for Faulkner County Animal Welfare Disaster Plan – two keys
2. Email address (separate but accessible to Judge's Office )
3. Permission for mileage and for an overnight lodging for two people to visit a recommended state with an exemplary animal disaster plan. Considering Joplin Standard County rate
4. Mileage for me or Core Team for rescue group verification - whatever the County's standard rate

I will keep you updated weekly and want your input and suggestions. Hopefully, this will be a solid start for an organized, well run plan not only during disaster times, but also, daily events.

Sincerely,

Donna Clawson

Faulkner County Animal Welfare Disaster Plan ~~Coordinator~~
